

FREE Energy Code Workshop

For Code Officials, Contractors, Energy Raters, Building Owners,
Architects, and anyone interested.

February 14, 2012

Building Science & Residential Energy 101

This class is to introduce basic building science concepts and how they relate to building and energy codes in residential construction. Discussions will include moisture flow and how it relates to the new vapor retarder classifications in the 2009 IRC, the concept of system integration (House as a System), and whether the code helps. New requirements for duct testing and blower door testing will also be explored.

8:00am-11:00am

**Empire Electric
Calvin Denton Room**

**801 North Broadway
Cortez, CO 81301**

1:00pm-4:00pm
